MEETING & EVENTS

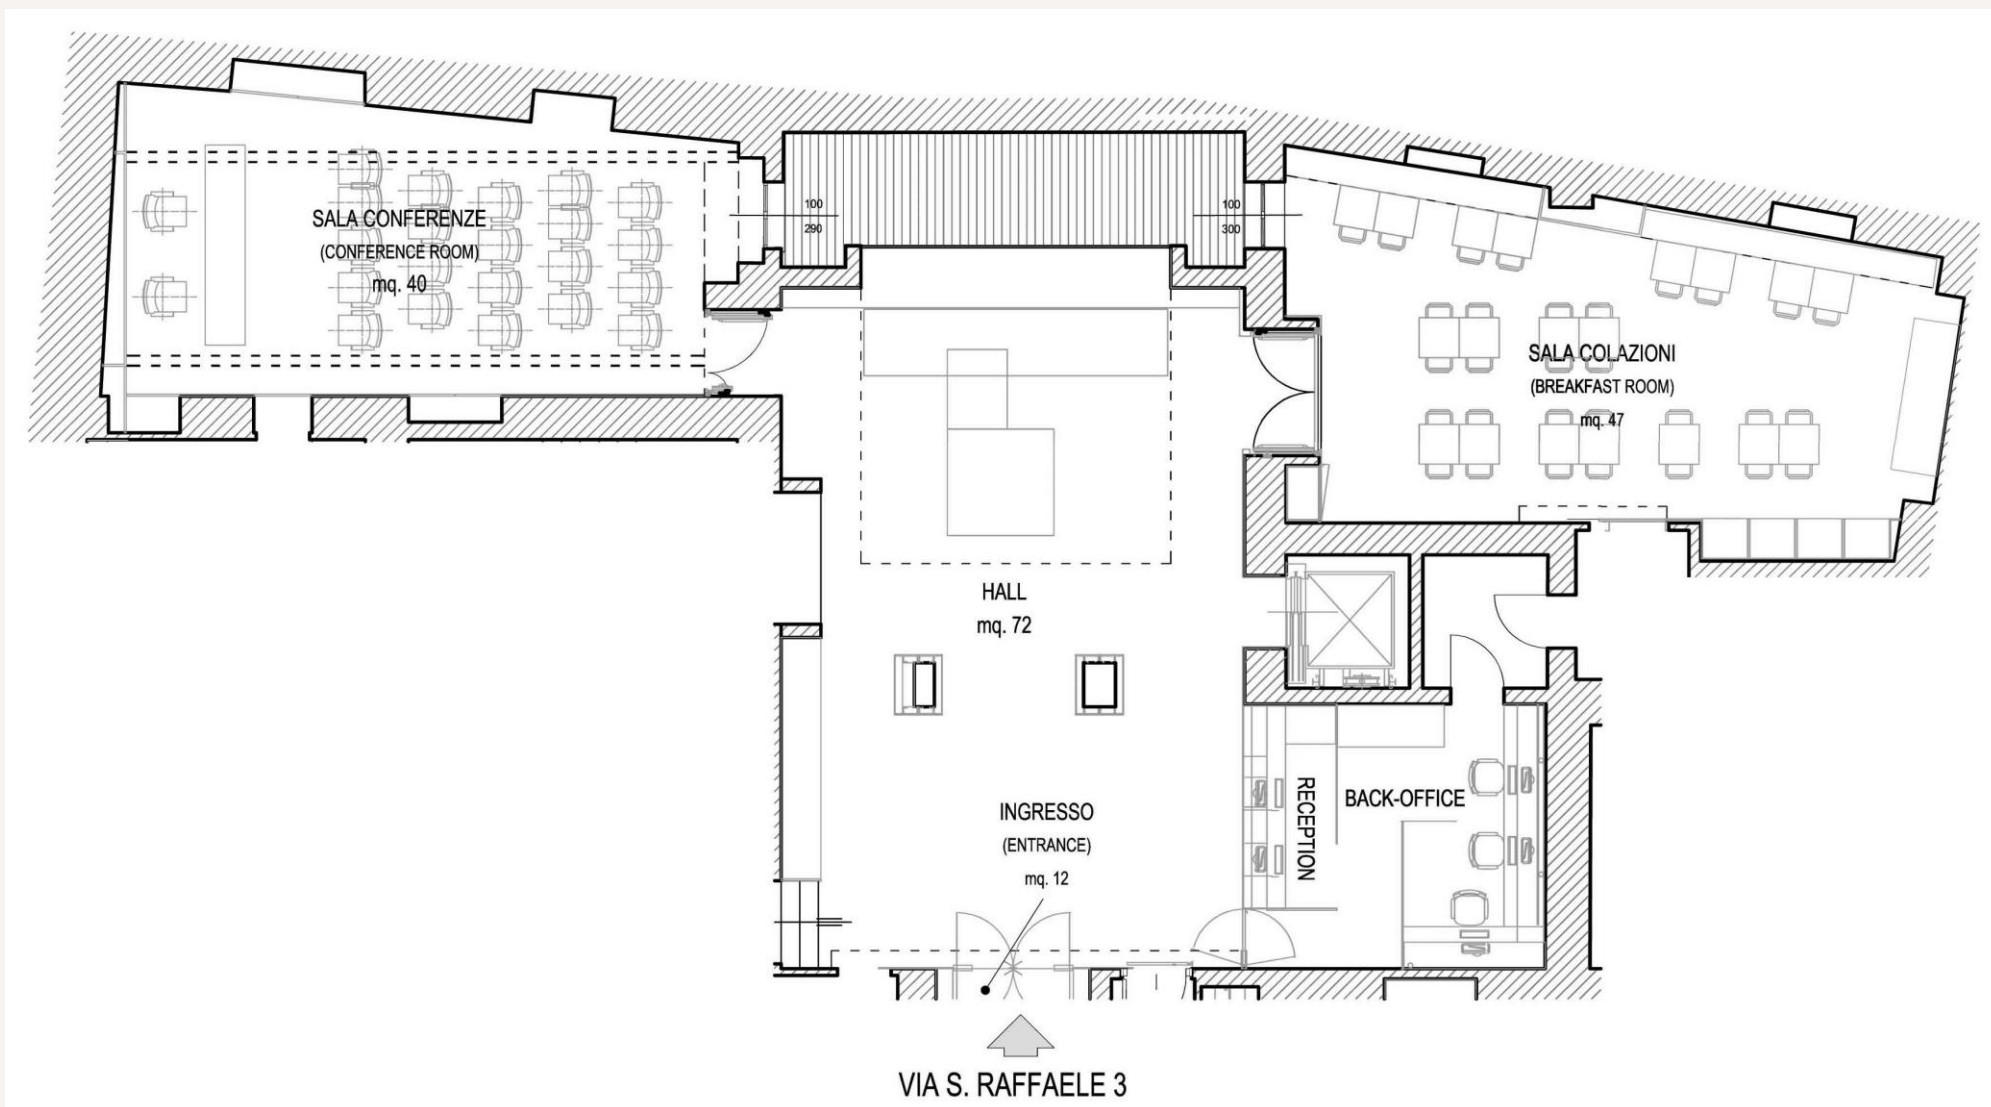

Cocktails, showrooms, meetings, art exhibitions. STRAF is a container of ideas and a versatile venue for events from 2 to 150 people. The minimalism of Vincenzo de Cotiis offers space to think, the contemporary design animates exchanges and interactions, the modular solutions adapt to every need. In addition to the meeting room, by reserving the adjoining hall and restaurant, you can obtain one large space dedicated to your guests.

On the top floor, for more exclusive private events, you can reserve three communicating Art Suites. Their terraces offer a magnificent view of the nearby Duomo.

MEETING

Located opposite the restaurant and lobby on the ground floor of the hotel, it is equipped with a megascreen for video projections and conferences. Thanks to the modularity and originality of the furniture, consisting of vintage tables and stools created to the architect's exclusive design, it is also ideal for showrooms. The colour change of the megascreen and the 'texture effect' of the walls strongly characterise the space, giving different sensations depending on the colour chosen.
